INDEX.

A.

Abdominal viscera, transposition of, 187.
Absorption, Draper on, 13.
Absorption, function of the different vessels in, 193.
Aconite, emmenagogue properties of, 504.
Adams' case of fallopian menstrual secretion, 38.
Adams on aneurism by anastomosis, 244.
Air, its generation in the venous system, 207.
Alanson on hemeralopia from worms, 239.
Alber's case of absence of uterus, 188.
Alison on the condition of the vital powers in arteries leading to inflamed parts, 201.
——— on asphyxia, 202.
Amenorrhœa, 227.
Amputation, partial, of foot and hand, 522.
———, spontaneous, of leg of fœtus in utero, 90.
———, at the hip joint, 243.
Aneurism, inguinal, 43.
——— of heart, 481.
——— of right subclavian, 243.
———, Earle's case of, 516.
———, by anastomosis, 244.
———, crural, 519.
Annan's instrument for prolapsus uteri, 334.
Anus, artificial, 247, 267.
Aorta, abdominal, obliteration of, 482.
Aphonia, 217.
Arsenic, antidote for, 504.
———, case of poisoning with, 531.
Arteries, condition of in inflamed parts, 201.
Asphyxia, 202, 249.
Asthma, sulphuret of potass in, 216.
Aural illusion, case of, 201.

B.

Babington on the blood, 432.
Baker, Samuel, Obituary of, 535.
Baldwin's case of incomplete catalepsy, 74.
Baroni's case of ligature of the posterior iliac, 244.
Barth's case of obliteration of abdominal aorta, 482.
Bartlett's case of local pulsation, 261.
——— cases, illustrative of certain pathological laws, 325.
Bass on corrigeen, 213.
Bastler on cholera of Vienna, 181.
Bell on small-pox, 143.
Bertozzi on ferro-cyanate of quinia, 253.
Biermann's observations, 451.
Bishop on physiology of fifth pair of nerves, 474.
Blood-vessels, injection for, 469
———, peculiar animated motion in, 477.
———, entire absence of, 482.
———, researches on carbonic acid of, 472.
———, Rogers on, 277.
———, Rees, Jennings, and Babington on, 432.
——— of vena portæ, 445.
Boehm on structure of intestinal glands, 469.
Bonnafont's plan of tying the internal mammary artery, 247.
Brachial artery, wound of, 532.
Braconnot on gastric juice, 201.
Brain, case of injury of, 533.
———, analysis of, 250.
———, contusion of, 48.
Brazillian Medical Journal, 182.
Breast, malignant tumours of, 37.
Brigham's case of brass nail in bronchia, 46.
Brooke's case of Cæsarian section, 258.
Broussais on numerical method, 489.
Brown on ectropium, 513.
British Medical Almanack, 457.
——— and Foreign Medical Review, 468.
Bruit de Soufflet, Corrigan on, 192.
Buzorini on tritoxide of iron as antidote to arsenic, 504.

C.

Campanelli's cure for ptosis, 513.
Canquoin's phagedenic paste, 214.
——— ——— resolvent pomade, 216.
——— ——— maturative ointment, 216.
Cantharides, tincture of, 498.
Carbonic acid of the blood, 472.
——— ——— gas in amenorrœa, 227.
Carusi's cure of asthma, 216.
Carron du Villards on cod liver oil for opacity of cornea, 239.
Casper on conception without coition, 475.
Catalepsy, 74.
Cataract, on operating for, when one eye is affected, 256.
Cæsarian operation, 248, 249, 250, 257, 258.
Chapman and Randolph's letter, 534.
Chilblains, 216.
Chloride of lime in wounds attended with great pain, 244.
Chloride of soda in sore nipples, 244.
Chopin on chloride of lime in wounds, &c. 244, 248.

Chopin on chloride of soda in sore nipples, 244.
——'s treatment of acute pains in vagina, 248.
Cincinnati college, 264.
Clavicle, fractures of, 62.
Coates on fractures of clavicle, 62.
Cold applications, use and abuse of, 225.
Conception, is it possible without coition? 475.
Constipation, case of, 260.
Consumption, Sachs on, 451.
Cornea, opacities of, 239.
Copaiba, tincture of, 496.
Corrigan on bruit de sufflet, 192.
Corigeen, 213.
Corrigan on affections of spinal cord simulating laryngitis, 178.
Couerbe's analysis of the brain, 250.
Couper's case of injury of brain, 533.

D.

Dalton's treatment of gonorrhœa, 87.
Defecation, O'Beirne on, 421.
Denig's case of constipation, 260.
Devergie's treatment of syphilis, 498.
Diarrhœa, chronic, 216.
Dieffenbach's treatment of artificial anus, 247.
Dohm on fumigations in hooping cough, 504.
Dorsey's case of traumatic tetanus, 529.
Draper on Absorption, 13.
Drowning, resuscitation from, 206.
Dry gangrene, 53.
Dunglison's Physiology, 264.

E.

Earle's case of ligature of subclavian, 516.
Ectropium, 513.
Elben's plan of making leeches attach themselves to particular parts, 214.
Emmerson on peculiar animated motion in globules of blood, 477.
Ens on affections of spinal marrow, 483.
Entozoa in human muscles, 187.
Eye, fungous hematodes of, 32.
——, apoplexy of, 238.

F.

Fallopian menstrual secretion, 38.
Faure on influence of temperature on development of volatile oil of mustard, 495.
Femur, dislocation of, 242.
——, bony union of neck of, 246.
Ferguson's case of aural illusion, 204.
Ferral on scarlet fever, 510.
Fever, continued, 209.
——, some points connected with, 227.
Fifth pair of nerves, physiology of, 474.
Fistula lachrymalis, new operation for, 239.
Fitch's case of spontaneous amputation of lower extremity of fœtus in utero, 90.
Fœtus, death of, 523.
Foot, partial amputation of, 241.
Fracture of lower jaw, 243.
Fractures, ununited, treated by seton, 246.
Fuhr's case of Cæsarean section, 250.
Fumigations in hooping cough, 504.
Fungous hematodes of eye, 32.

G.

Galbiati on death of fœtus, &c. 523.
Gamberini's treatment of chilblains, 246.
Gangrene of the lungs, 304.
——, dry, 53.
Gastero-entero-meningitis, 51.
Gastric juice, 201.
Gastritis, 50.
Geiseler on extracts of rhubarb and gentian, 495.
Geneva College, 264.
Gentian, extract of, 495.
Gerdy's case of amputation at the hip-joint, 243.
Gerhard on clinical instruction, 387.
——— on diseases and diagnosis of diseases of chest, review of, 92.
———'s clinical reports, 301.
Gibson's cases of Lithotripsy, 338.
Gmelin, &c. on the carbonic acid of the blood, 472.
Goitre, extirpation of, 523.
Gonorrhœa, bandage in, 87.
Gordon's letter, 262.
Gout, &c., case of, 373.
Graves on hoarseness and aphonia, 217.
——— on fever, 227.
——— on paraplegia, 486.
——— on scarlet fever, 506.
——— on persesquinitrate of iron, in chronic diarrhœa, 216.
——— on sleeplessness, 218.
——— use and abuse of cold applications, 225.
Green's treatment of hydrocele, 519.

H.

Halphen on cholera of New Orleans, 183.
Hall on nervous system, 463.
Handyside on absorption, 193.
Harlin's case of absence of blood, 482.
Harrison on entozoa in human muscles, 187.
Harris on bony union of neck of femur, 246.
Heart, cessation of the beating of, 481.
——, differential pulse of, 199.
——, motion and sounds of, 194.
——, rupture of, 206.
Heim on conception without coition, 475.
Hemeralopia from worms, 239.
Henderson's case of gout, &c., 373.
Heustis' case of wound of brachial artery, 532.
Hildreth on neuralgia, 77.
Hobart's case of aneurism of right subclavian, 243.
Homœopathy, 253, 254.
Hooping cough, 504.
Hydrocele treated by seton, 519.

I.

Iliac, posterior, ligature of, 244.

Imbert's farmers' manual, 158.
Incubus, Strahl on, 393.
Inguinal aneurism, in which the right external iliac was tied, 43.
Intestinal glands, structure of, 469.
Intussusception, case of, 262.
Iron, persesquinitrate of, 216.
Itch, treatment of, 216.

J.

Jacobs' operation for fistula lachrymalis, 239.
Jaeger's operation for ectropion, 513.
Jatropa curcas, seeds of, 496.
Jennings on the blood, 432.
Jugular, internal, ligature of, 330.

K.

Kennedy on purulent ophthalmia, 234.
Kidney, function of fœtal, 476.
Knowles' Cæsarian operation, 248.

L.

Laryngitis, simulated, 473.
Laryngeal inflammation, 217.
Latham's lectures on clinical medicine, 407.
Lee on functions of fœtal kidnies, 476.
Leeches, method of making them attach themselves to particular parts, 214.
Lison's treatment of itch, 216.
Lithotripsy, 338.
Liver, encystment of, 206.
Lotz's instrument for cure of artificial anus, 367.
Louis' researches on blood-letting, &c., review of, 102.
Lower jaw, fracture of, 243.

M.

Macfarlane on partial amputation of foot and hand, 522.
Macwhirter's case of recovery from asphyxia, 249.
Marshall, chief justice, disease of, 534.
———— on spinal irritation, 171.
M'Cready on dry gangrene, 53.
M'Donnell on differential pulse, 199.
Medico-Chirurgical Transactions, 147.
Mercurial ointment, rapid method of preparing, 495.
Mojon's treatment of amenorrhœa, 227.
Morgan's case of ligature of internal jugular, 330.
Mustard, oil of, 494.
Mondiere on incontinence of urine, 505.
Moreau on subcricoid tracheotomy, 515.

N.

Nervous system, Hall on, 463.
Neuralgia, Hildreth on, 77.
Nipples, sore, 244.
Numerical method, 489.

O.

O'Beirne's new views of defecation, 421.
Ogier's case of enlargement of penis, &c. 282.
Ophthalmia, purulent, 234.
————, rheumatic, 527.
Oxley's new vermifuge, 512.

P.

Panizza's experiments on the nerves of the tongue, 188.
Panvini on homœopathy, 254.
Paraplegia, pathology of, 486.
Paravey on Chinese rhubarb, 495.
Parrish's Surgical observations, review of, 131.
———— cases of rheumatic ophthalmia, 527.
Penis, enlargement of, with new operation for, 382.
Perry on continued fever, 209.
Pertussis, fumigations in, 504.
Philip on sleep and death, 165.
Phthisis pulmonalis, 451.
Pleurisy, fatal cases of, 325.
Portal's cases of ununited fracture treated by seton, 246.
Potass, sulphuret of in asthma, 216.
Prus' case of partial aneurism of heart, 481.
Ptosis, 513.
Pulmonary exhalation, 469.
Pulse, differential, 199.
Pulsation, local, 261.

Q.

Quassin, 495.
Quinia, ferro-cyanate of, 253.
Quinine, hydrochlorate of, 505.
Quisqualis indica, 512.

R.

Raleigh's case of generation of air in veins, 207.
———— case of transposition of abdominal viscera, 187.
Rampold's case of cessation of beating of heart, 481.
Ramsay's clinical report, 47.
Reader on peculiar animated motion in globules of blood, 477.
Rees on the blood, 432.
Respiratory muscles, paralysis of, 460.
Retzius' cold injection for blood-vessels, 469.
Rheumatic ophthalmia, 527.
Rhubarb, Chinese, 495.
————, infusion of, 495.
————, extract and tincture of, 495.
Rogers on the blood, &c. 277.
Royal Academy of Medicine, review of memoirs of, 122.
Ruan's case of inguinal aneurism, 43.
Ruiz's extirpation of goitre, 523.
Ryan's manual of midwifery, 263.

S.

Sachs on phthisis pulmonalis, 451.

Scarlet fever, 506, 510.
Schultz on the blood of vena portæ, 445.
Seton, treatment of hydrocele by, 519.
Seton in ununited fracture, 246.
Sigmond on seeds of Jatropa curcas, 496.
Skillman's case of poisoning with arsenic, 531.
Skull, extensive fracture of, 49.
Sleeplessness, 218.
Smith's cases, 32.
Southern Medical and Surgical Journal, 468.
Spielman on hydrochlorate of quinine, 505.
Spinal cord, affections of simulating laryngitis, 478.
—— marrow, affections from irritation of, 483.
Steel's address, 263.
Stokes on diagnosis of some of the diseases of the thorax, 211.
Strahl on incubus, 393.
Stromeyer on paralysis of muscles of respiration, 460.
Subclavian artery, aneurism of, 242.
Syme's case of fracture of lower jaw at the symphosis, 243
—— on partial amputation of the foot, 241.
—— on dislocation of the thigh, 242.
Symons' introductory lecture, 264.
Syphilis, antiphlogistic treatment of, 498.

T.

Tayler's case of crural aneurism, 519.
Tetanus traumatic, 529.
Thigh bone, dislocation of, 242.
Thorax, diagnosis of some of the diseases of, 211.
Thorburn's elements of bed-side medicine, 178.
Ticknor's philosophy of living, review of, 111.
Tiedemann's experiments on pulmonary exhalation, 469.
Tongue, nerves of, 188.
Tracheotomy, 515.
Transylvania University, 264.
Travers on constitutional irritation, 170.
Turnbull on veratrine, 505.

U.

University of Pennsylvania, 264.
Urine, incontinence of, 505.
Uterus, prolapsus, 334.

V.

Vagina, acute pain in after delivery, 248.
Van Mons' method of preparing mercurial ointment, 495.
Veins, generation of air in, 207.
Velpeau's treatment of mercurial salivation, 234.
Vena portæ, blood of, 445.
Veratria, 505.
Vermifuge, new, 512
Virey's Philosophy of Natural History, 168.

W.

Wallace on the eye, 264.
Weems' case of Cæsarian section, 257.
West on emmenagogue properties of aconite, 504.
Wilson's case of intussusception, 262.
Winckler on quassin, 495.
Wittekop's case of Cæsarian operation, 219.
Wood's address, 263.
Wooley on resuscitation from drowning, 206.

Y.

Young's aceto-spirituous tincture of cantharides, 498.

OCT 12 1916
